“If finding the right people to hire is the hardest thing for any business to do, then the second hardest thing must be finding the right people to find them”

REAL LIFE SUCCESS

"I chose to work with Katherine based on one thing, her knowledge. She successfully attracted people to have conversations with us where others has failed. She mapped the market and gained trust from the people she spoke with.

I worked with Katherine here in NYC, hiring for us in Banking and Fin Tech. We worked with her for a search campaign and three contingent hires. She is exceptional at what she does, and her integrity stands out in the industry.

We knew exactly who else she worked with and we therefore knew where she was going to be able to attract talent for us from, and that was important to us and had her stand out amongst other recruitment firms."

— Owner & CEO

"As the owner of a Boutique Banking recruitment firm, I needed to work with someone who understood our model operating style and the skills required to be a successful recruiter in that model.

Katherine provided us with this and identified precisely where our competition was in the market and what would have to be our point of difference to attract a strong Fin Services Recruiter to our organization."
